

# bluedog Vulnerability Management

*"Forewarned is Forearmed"*

With bluedog ISO27001 certified VAPT Service, organizations of all sizes now have the power to protect themselves with either an affordable recurring automated VAPT or an intensive one-time manual VAPT service.

## What is VAPT?

Vulnerability Assessment and Penetration Testing (VAPT) as the name suggests scans your public facing network interfaces and website to find any vulnerabilities that can be exploited by cyber criminals to gain entry to your network or the workings of your website.

Because VAPT is such an important weapon in your armory against cyber-attacks, at bluedog we offer a suite of VAPT services to suit all operational scenarios and budgets, all of which are backed by our 24/7 fully staffed SOC.

We offer both automated VAPT scanning and a manual Penetration Testing service.

## bluedog Automated VAPT

Automated VAPT is a low cost way to keep your eye on the state of your network and website either on a regular monthly basis or maybe a one-off snapshot.

The process is non-invasive and will not cause any downtime or harm to your network or website.

A regular VAPT scan will show you how your security is improving over time, the reports we generate highlight deficiencies and vulnerabilities to enable you to strengthen your defenses.

## Key Features of bluedog VAPT

- ✓ Over a million different checks are done each time.
- ✓ Performs active reconnaissance.
- ✓ Scans against direct exploitation.
- ✓ Performs partial authentication and authorization bypass.
- ✓ Updated for new issues daily from multiple trusted sources.
- ✓ Provides detail over time.
- ✓ See the full coverage of each scan through our dashboard and generate report anytime.
- ✓ Handles the false positives.
- ✓ Provides descriptions, insights, detection, summary, solutions, and other hosts with the same issue in one view.
- ✓ Reviewed and governed by the bluedog 24/7 Security Operation Center.

## bluedog Manual Penetration Testing

While Automated VAPT is an amazing way to fill in your compliance gaps and provides detailed insight on an ongoing basis. We cannot change the fact that cybercriminals are people who know how to adapt, which is why bluedog also offers a Manual Penetration Testing Service.

The bluedog team has more than 20 years' experience in ethical hacking and have conducted manual pentests to almost all verticals in over 30 countries. Our team of experts is capable of identifying and exploiting different vulnerabilities of any verticals.
